### **The New Telephone Company, Inc. buys the assets of Boyle Communications, Inc.**

**March 29<sup>th</sup> 2010** - The New Telephone Company, Inc. (NTC) a telecommunications equipment provider and competitive local exchange carrier announces today that it has purchased the assets of Boyle Communications, Inc. of Charlotte, NC.

"Boyle Communications is a perfect "next step" for NTC in that it now allows us entrée into the PBX side of Nortel. This was a market we simply could not reach without an acquisition of another company. This also puts us in the lucrative Charlotte market and continues our drive of consolidation" says Doug Rink, CEO." "Boyle Communication clients will be served by our subsidiary B & L Telephone LLC." Rink goes on to say.

The New Telephone Company, founded in 1972, has since severed the Hickory Metro market and other markets as far away as Asheville and Greensboro, was acquired by Rink in March of 2007.

The New Telephone Company, Inc. is a proud member of the Catawba County Chamber of Commerce.
